

DMZS515

Tracked Mobile Heavy Duty Screen

Features

Crushing & Screening

Transport size

Standard: Fully Hydraulic
Simple and efficient, high reliability, machine maintenance and operating costs are greatly reduced

Model	DMZS515
Feeding capacity(tph)	150 - 400
Hopper volume(cbm)	7
Screenbox layers	2
Screenbox inclined angle(°)	13 - 19
Max capacity(tph)	500
Engine power(kw)	93
Transport size(LxWxH, M)	15 x 3.2 x 3.5
Weight(tons)	33

The pictures in this manual are for illustration only, some or all of the equipment may have other additional options, please contact DongMeng for details.

Tracked Mobile Heavy Duty Screen

Product Introduction

DongMeng DMZS515 is a Heavy-duty Screen which can be used by itself or along with our crushing units. It widely used in quarry, mining, demolition, topsoil processing, recycling, sand and gravel screening, coal mine and aggregate screening. Can be fed by the Excavator, capacity up to 400t/h.

Advantages:

- It is widely used in quarry, mining, demolition, topsoil processing recycling, sand and gravel screening, coal mine and aggregate screening.
- Equipped with Heavy-duty vibrating screen, the inclined angle can be adjust between 13° - 19°
- The high-performance screen box can be installed with grizzly bars, punch plate, grid mesh, needle screens, wire mesh and etc.
- The vibrating screen can be raised and lowered hydraulically, which is convenient for maintenance and screen replacement. The belt conveyors' discharge angle can be adjusted by hydraulic.
- The intelligent wireless remote control is used to control the track walking, one person can operate the track unit up and down the flat trailer for rapid working site transition.

Screen box structure

Feeding device

- Large hopper, full load operation
- Apron feeder, more stable and safe

Vibrating Screen

- The high-performance screen box can be installed with grizzly bars, punch plate, grid mesh, needle screens, wire mesh and etc.
- The screening efficiency is high, the screen size can be adjusted according to the user's outputs requirements, and the screen replacement efficiency is higher

Fully hydraulic drive system

- Stable operation and few failures
- Convenient maintenance, quick replacement of wearing parts

Product Conveyor

- Large and sturdy product conveyor with adjustable discharge height
- Hydraulic folding belt for easy transportation

► Quarrying ► Mining ► Demolition ► Recycling

It can be used along with other crushing units or separately, maximum can get three kinds outputs
